Reading Check on Paper

Class record and next steps

Use student codes when possible. Keep this sheet with other private classroom records. For each check, enter the count correct and possible in the form's reported areas. Record separate dates and keep earlier scores visible. Example: A · Nov 12 · Lit 3/4 · Inf 5/8 · Ev 6/8.

Name or code	First check: form, date and counts	Recheck: form, date and counts	Next teaching step

Choose the next step

Looks secure. Confirm that the pattern holds in classroom work; offer extra practice.

Check further. If the counts disagree or the evidence is thin, talk through a different short passage and check how the student chose their evidence.

Possible need. Reteach the specific skill, use guided practice, and recheck on an unseen form.
